

**Ecuador Premium Fruits**

PRODUCT OF ECUADOR

# About Bagnó Origin and History

Our sweet history with an overall 25 years of experience, is as sweet and amazing as the quality of our fruit. We dedicate to produce and export, the best tropical fruits, for the whole planet.

Since 1993 Bagnó Ecuador Premium Fruits has had a constant growth by being a company established to satisfy all the requirements of its clients in the main markets around the world. Our passion is to deliver the best fruit from the best production fields in Ecuador our clients. Without a doubt we have an outstanding quality for our fruit.

All the fruit from Bagnó Ecuador is the most sweet, tasteful and nutritious from Ecuador. To be successful in these goals we work hand to hand with our associated producers so that the highest standards of quality and production are achieved. Good production and environmental practices are controlled to preserve our fields by always considering the social well-being of the agricultural communities in our production areas. Always innovating, to push ourselves to be better every day so that we can position our brand around the world.

The commitment to our clients, have taken us to form the best commercial team in the country with a customer service 24/7 all year around. Bagnó Ecuador Premium Fruits is more than just a brand, we are an experienced team to service our clients. By harvesting and exporting only fruit with responsibility, we preserve our delicious and sweet natural flavor. Simply the best.

# Process and Packaging of our Fresh Fruit

Our outlook is clear, it is to make our Bago brand one of the leading fruit brands in the world. All of our processes achieve the highest standards of quality and good production practices guidelines.

Our experience and passion for our Ecuadorian banana has taken us to constantly innovate and improve for our clients. In **Bago Ecuador Premium Fruits** we offer the best tropical fruits, from the best production fields in Ecuador.

All of the associated producers and packing houses have been carefully selected by our technical team. They have the best structure and certificates to accomplish the most efficient packing process. We also comply with the logistic and transport times of the fruit to the world market. We strive for careful handle of the fruit, to guarantee a responsible quality and appearance of our product. Our technical team is properly train, so that we can notice all the small details and be successful with our promise.

The experience of Bago's technical team, in the last two decades, have made us leaders in sustainable production of Cavendish bananas in Ecuador. In **Bago Ecuador Premium Fruits** we comply with the requirements of our clients and destination markets. Our Standard Operations Manual specifies all the details like: fruit selection, harvesting age, packing materials, net weight and labeling. All this guarantees our cooperation to be responsible with the social well-being, protection of rights and integrity of our employees and associated producers from the local production communities.

# Certificates that guarantee our Sweet Fruit

Our processes and certificates guarantee a tasteful, sweet and nutritious fruit, for all our clients around the world. Nothing compares to the sweetness and smoothness of our banana.

For many years **Bagno Ecuador Premium Fruits** and its associated producers have work together to keep up with good production and environmental practices for all the phases of the production process. This joint effort has allowed our organization constant grow which give us international recognition as one of the most trustful providers of Premium Bananas in Ecuador.

Our certificates guarantee the quality of our sweet fruit. **The Global Gap and BASC certificates** not only help us gain recognition in the last 25 years, but also gave us the guidelines to improve our business. Nothing can guarantee more the quality than the kindness, consciousness and ethic of our team in every aspect of their daily work routines.

All the production fields from the associated producers of **Bagno Ecuador Premium Fruits**, have the most current technology for field irrigation, drainage systems, recycle systems, efficient packing houses, good access roads and appropriate loading docks. This optimizes the good service to our clients creating a quality process that is dynamic and with reliable fruit.
